International Shipping

We currently ship to over 40 countries. International orders typically arrive within 10-14 business days, though delivery times can vary depending on the destination country and customs processing. Shipping costs are calculated automatically at checkout based on your location and order weight.

Please note that international orders may be subject to customs duties, taxes, or import fees imposed by the destination country. These charges are the responsibility of the customer and are not included in the order total.

Order Tracking

Once your order ships, you'll receive an email with a tracking number and a link to follow your package's journey. You can also view tracking information anytime by logging into your account and visiting 'My Orders'.

Shipping Address Changes

If you need to update your shipping address, contact our support team as soon as possible after placing your order. We can update the address only if the order has not yet been processed for shipment. Once an order has shipped, we're unable to redirect or modify the delivery address.

Lost or Delayed Packages

If your tracking shows no movement for more than 5 business days, or your package appears lost, please contact our support team with your order number. We will work with the carrier to locate your

package or arrange a replacement or refund if it cannot be found.

Delivery Issues

If a package is marked as delivered but you haven't received it, please check with neighbors and building management first, as carriers sometimes leave packages in alternate secure locations. If you still cannot locate it after 24 hours, contact our support team and we'll investigate with the carrier.
